VINTAGE PALETTE

*A guide for improving the plant selection
process and creating landscape designs
with recognized and enduring quality.*

The background of the entire page is a close-up photograph of purple lavender flowers. On the right side, there is a vertical wooden plank with a natural grain and a small knot. The text is overlaid on this background.

ACKNOWLEDGMENT

Thank you Al Hollinger for your passion for thriving landscapes.

This plant guide is our effort to improve the plant selection process and to create landscape designs that are recognized and have enduring quality.

Our goal is to help you select plant material best suited not only to survive but to thrive in our beautiful desert. Our palette is unique to our valley and we've included the "need to know" information to make the plant selection process enjoyable. These are plants iconic to our desert which we hope you can get to know on a first name basis.

If you are hands on and would like to see the plants in this guide in person, they are readily available at Vintage Nursery.

We believe the more you enjoy learning about the plants in this palette, the more success we will have in helping you achieve the vision for your landscapes.

Sincerely,

KYLE GRITTERS

President
